The Success

Doubles Manure Values.

For 25 years we have manufactured the Kemp Manure Spreader. It is the machine that made mechanical spreading of manure a success. Its fame has become world wide. We still manufacture it in its improved form. The "Success" embodies all the advantages of the celebrated Kemp, with certain improvements, which make it the unquestioned peer of all spreaders.

Its Mission is the spreading of all manures, no matter what the character or condition, and all commercial fertilizers. Makes the manure go twice as far and secures better results.

Special Features are positive in character, tested and proven. Among them are its Beater Freeing Device, Direct Chain Gearing of Beater, Separate Control and Working of Beater and Apron, Automatic Return of Apron, Device to Regulate Quantity of Manure Spread, etc.

Its Handling is all from the seat. It spreads any quantity per acre, changes to fast or slow instantly, unloads in 3 to 5 minutes, stops apron and ceases spreading while beater revolves full speed for bridge and swale crossings, etc.

Construction is the best possible from materials proven best by experience. Every part positive and perfect working; draft the lightest, least breakages and repairs. Made in 4 sizes.

Guarantee to replace free any part breaking from defective material or workmanship.

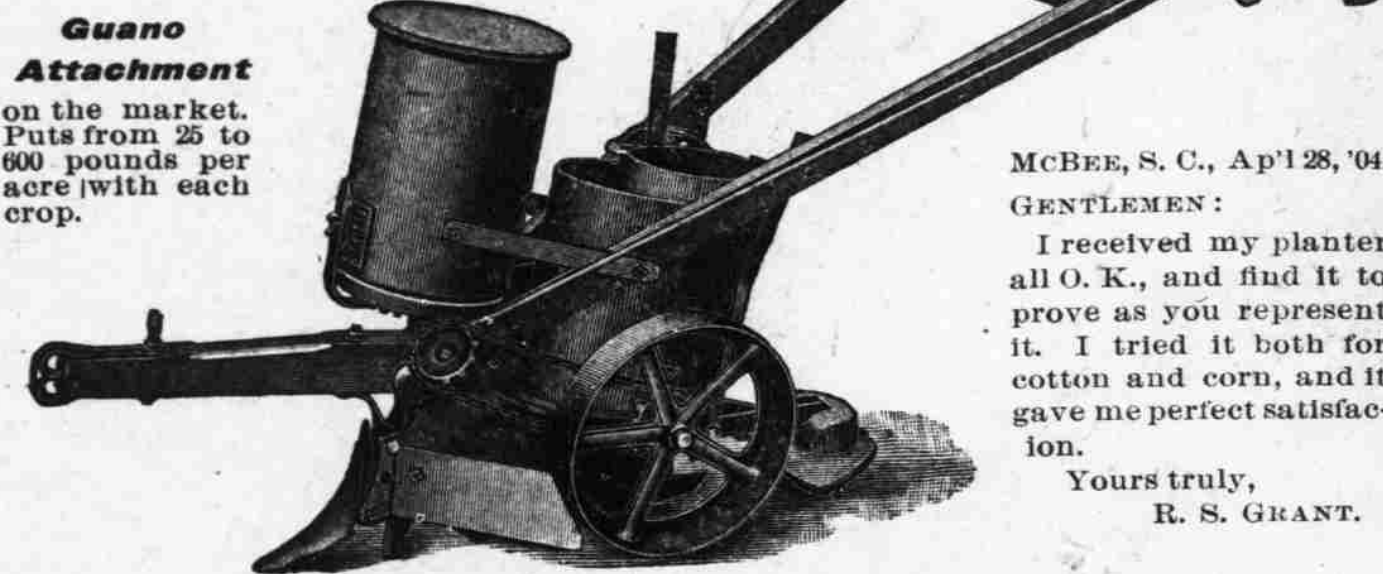

The Success Catalogue fully describing and showing why superior, with valuable chapter on fertilizing, mailed free.

on the market.
Puts from 25 to 600 pounds per acre [with each crop.

MCBEE, S. C., Ap'l 28, '04.
GENTLEMEN:

I received my planter all O. K., and find it to prove as you represent it. I tried it both for cotton and corn, and it gave me perfect satisfaction.

Yours truly,
R. S. GRANT.

ANNOUNCEMENT.

We have received hundreds of voluntary letters from farmers in six States testifying that Cole Planters and Distributors are better than any others whatever. We shall print a new letter every week, and we ask every one who has never tried the Cole Planters to read them carefully and send for our catalogue for all information. Machines for next season will be better than ever.

Every machine we sell creates a demand for more; and without going into new territory our sales the last season were three times larger than the year before. Is not this strong proof of merit?

SPECIAL REQUEST.—We want every farmer who has used our machines to write to us a short letter giving his estimate of them. Make it short and to the point. Mention defects if you find any that are serious. Please do this to-day; we want to hear from you, and then we want to know if you read The Progressive Farmer. We shall highly appreciate your kind and prompt response.

We extend our sincere thanks to our friends for their many kind words and valued patronage, and are proud to believe that we are doing the farmers good service.
